INTRODUCTION

The solar plexus chakra is related to Pluto. No wonder we feel like we have been punched in the stomach when Pluto makes itself known on our charts! Certainly the first few times we feel its power, we experience the destructive force of this planet. Along with destruction and death, however, we also find transformation. Pluto may signal the death of desire or the death of the personality, but never the death of consciousness. In fact, Pluto indicates the times when we mobilize our will and power to gain awareness and understanding.

The truly remarkable moments in your life are all about transformation. You will read about extrasensory powers and hidden talents associated with Pluto in your birth chart, and you will learn when and how those abilities can unfold. As Pluto moves through your chart to ignite your desire for transformation, hidden abilities arise from invisible planes. You learn to be a locus of effective action in a world governed by change.

We all have periods in our lives when nothing seems to go as planned. Pluto tests you along the path of life. As you experience his energy, you find that your soul is impacted by Pluto far more than your personality ever could be.

You actually feel the onset of Pluto's energy months or years in advance of the astrological indicators. You feel conflicts associated with power and will well before you are forced to make decisions, and you feel the impact of those decisions long after you have made them.

GROWING YOUR SECRET ABILITIES

During your life, Pluto moves through sections of your chart to charge up your life in dramatic ways. You experience major shifts in focus, indicating changes in personal outlook and the accompanying events that set the tone for long periods. These changes reveal some of the most profound differences from other people in your age group.

Interestingly, not every Pluto contact generates incredibly thrilling or chilling events. There are times in your life that you have deeply personal 'takes' on life, and there are times when you are challenged to transform your emotions, your ideas, and your goals. You sometimes find yourself in exactly the right place at the right time. You sense the power around you and you can flow with it easily. Finally, there are golden moments when you see opportunities. You may even get two chances at some of these opportunities.

Occasionally, Pluto drags to the surface all that hinders you. These are probably the times when you gain the most from personal examination. Although difficult, these poignant lessons actually provide you the chance to exercise your will and consolidate your personal power. One thing about Pluto events - once you have learned the lesson, you will not soon forget it! Your life changes for the better each time you clear up old karmic business and turn your attention to the future.

Note that the report repeats certain interpretations. This occurs because Pluto appears to go backward in the sky for a period of time each year. The first time you see an interpretation, you get an idea of the theme. The second time you perceive the problems involved, and the third time you have hopefully resolved some of the issues and can look forward to the reward, which will carry you forward. For the Milestone aspects in particular, the effect will carry forward until the next milestone several years later.

Pluto semi-sextile Mercury, 23 Feb 2006 & 3 May 2006 (16 Jan 2006 - 16 Jun 2006)

Accept the challenge to use charisma instead of brute force! Then your ability to use magical or psychic abilities will work for you instead of against you. Each challenge is met with the powers you built the last time, so your powers increase dramatically now.

Several healing methods involve the laying on of hands, or the channeling of psychic energy through the hands when they are held close to the body. In some cases pressure is applied to stimulate energy flow from the healer to the recipient.

Air, one of the four ancient elements or concepts, provides a viable medium for divination. You may get psychic insights during windstorms, or you may be influenced by the subtler current of air in your home.

Pluto sextile Uranus, 31 Jan 2011 (1 Jan 2011 - 16 Mar 2011)

You find opportunities at every turn for transformation in your life. As your hidden abilities develop, you can heal yourself and others, send and receive messages telepathically, or extend your conscious foresight into the distant future.

Meteorologists all wish they had this psychic talent! Divination by observing the weather involves forecasting future outcomes, not only regarding weather, but also involving human endeavors of all kinds.

MILESTONE: Opportunities to Plot Your Own Psychic Course through Life

At this time you experience many possibilities that can take you in positive or not so positive directions. Others may try to influence your decisions, and you will want to develop a steadfast way of dealing with coercion or persuasion from others.

Opportunities for self-development in mental, emotional, and spiritual arenas pervade this period. Possible opportunities to improve health or change your appearance are part of the package. Contemplative practice puts you in a good frame of mind for exploring your psychic and extra-sensory talents.

You can cultivate the ability to perceive the qualities of an object or person through touch. As you touch an object, you get feelings about people who have handled it before or about places it has been.

MILESTONE: Desire for Power, Will to Act

The coming period produces a marked desire to integrate emotions, thoughts, and spiritual values into a cohesive sense of self. The younger you are at this milestone, the earlier you embark on a period of exciting changes in your psychic worldview. Regardless of your age at this time, you grow up now and accept responsibilities. The vast age difference when people experience this aspect represents a huge difference in physical, mental, and spiritual development - it can occur as early as eleven years of age or as late as age thirty-two.

Integrating emotions, thoughts, and spiritual values into a cohesive sense of self is a mighty undertaking. Because of the psychological and emotional energy you put unto this endeavor, your subconscious responds with glimpses of your hidden extrasensory abilities. You may even have a psychic talent burst into consciousness because of trauma or an ecstatic event in your life.

Calling a dream involves asking for the answer to a question before sleep, and using dreams to divine the answer. Skill develops as you record dreams and explore their symbolism.

Pluto quincunx MidHeaven, 17 Feb 2020 (17 Jan 2020 - 10 Apr 2020)

As your self-awareness increases, you become more aware of the psychic energies that impact your daily life. You also discover ways to insulate yourself so you can use the energy instead of feeling used by it.

Faith healing is a power that depends to some degree on the compliance of the 'patient.' You are capable of both convincing others that you have this healing power, and also laying on of hands to heal another person. Reiki and Ki healing are examples.

Pluto trine Ascendant, 7 Mar 2020 & 15 Jun 2020 (1 Feb 2020 - 29 Jul 2020)

Charisma becomes an active facet of your personality. You seek power through the use of your hidden abilities. Psychic awareness puts you ahead of the game in most social situations, and intuition foreshadows the future.

Channeling allows a message to pass through your body and mind. You not only are not the creator of the message, you do not interpret it either. You simply speak it to share it with other people. Your channeling may also include openness to universal energy for healing, as in Reiki healing.
